Ankit Yadav

RESUME SUMMARY

I am a skilled software developer with basic knowledge in cloud computing and generative AI. Passionate about both high and low-level system design, I bring strong problem-solving skills and leadership ability to the table.

I am committed to building seamless teamwork experiences and efficient digital solutions that leverage modern technologies.

- JEE Mains : 300000

PERSONAL DETAILS

Current Location	Prayagraj
Date of Birth	April 13, 2005
Male	

EDUCATION

Graduation

Course	B.Tech/B.E. (Computers)
College	United College of Engineering & Research, Allahabad, Allahabad
Score	7%

Schooling	Class XII	Class X
Board Name	Uttar Pradesh	Uttar Pradesh
Medium	Hindi	Hindi
Year of Passing	2021	2019
Score	81%	86%

INTERNSHIPS

Lit Amor | July 2025 - July 2025

- It was nice for me to get into depth of some new skills like react native and firebase for creating APIs for making the android apps

PROJECTS

Lone Town – Real-Time Personality-Based Chat App | May 2025 - June 2025

- Built a full-stack MERN application that matches users daily based on personality and habits, enabling real-time one-on-one chat and unlocking video calling after 100 messages. Integrated Socket.IO for live messaging and Jitsi Meet for video chat, with a modern UI using Chakra UI and Framer Motion.

Online Pizza Delivery System | January 2024 - April 2024

- Designed and developed an online pizza ordering platform with user authentication, customizable pizza options (size, variant), real-time cart updates, and order tracking. Integrated admin panel for managing pizzas, users, and orders efficiently.

College Complaint Management System | May 2023 - July 2023

- Developed a web-based application to streamline student complaint submissions and resolutions, enabling efficient communication between students and administrative staff. Implemented user authentication, complaint tracking, and status updates for transparency.

ProjectZen App | January 2023 - April 2023

- Objective: Developed an advanced collaboration platform with real-time chat (WebSocket), AI tools (ChatGPT, Gemini), and centralized project management for seamless teamwork and communication.

ACHIEVEMENTS

- Top 10 in class in B.Tech/B.E.
- Top 10 in class in school
